**Type:** A=Annual, P=Perennial, B=Biennial, TP=Tender Perennial

**Bloom Time:** Sp=Spring, S=Summer, F=Fall

A good choice for a wildflower mix along the front range (and lower elevations), but will require supplemental watering to be successful. Takes longer to germinate than other wildflower mixes.

For best results, plant in late fall.

Planting Rate/Acre: 6-12 lbs  
**Planting Rate/Acre Grass/Wildflower 1-5lbs**

**Not the Biggest ..... Simply the Best !!!**
