Type: A=Annual, P=Perennial, B=Biennial, TP=Tender Perennial

Bloom Time: Sp=Spring, S=Summer, F=Fall

This mix does well in sunny, exposed areas. If combined with our Dry Wildflower Mix, it can work well on slopes. Can grow in natural conditions, without supplemental water. Ideal for high desert areas such as the west slope of Colorado and New Mexico. This mix is not to be planted anywhere livestock may graze.

Planting Rate/Acre: 6-12 lbs
Planting Rate/Acre Grass/Wildflower 1-5lbs

Not the Biggest Simply the Best !!!
