

TURF mix

2025

Buffalo Brand Transition Turf Mix

Composed of primarily cool-season, sod-forming and naturalized species that do well on coarse, infertile soils in the mountains and foothills. Transition turf seed mix has good tolerance to traffic, sun, and shade and compacted soils (sometimes found around post-construction sites where heavy equipment has been in use).

35% Perennial Ryegrass, VNS
35% Tall Fescue, Turf Type, VNS
20% Smooth Brome, VNS
10% Forage Bluegrass, Filly
